Subject: Fw: Status of Dimock GW Site

Fred,

The Table 1, as revised to include all of the labs, is below. This will be helpful for Dan and others when dealing with the ARF. This Table 1 has been revised from the one provided with the SAP.

Cindy

Subject: Status of Dimock GW Site

All,

Our branch has been actively involved with the sampling plan for the Dimock GW Site (Marcellus Shale residential well sampling). For those of you working on this, thank you very much for your time and energy in meeting the demands of this project! Here's a status for everyone.

Note: All documents are stored in ASQAB_AT/Special Projects/Marcellus Shale/Dimock.

Ex. 5 - Deliberative

We have finalized the parameter list and have labs assigned. Here is a link to that table

An analytical request form is in progress but has not officially been submitted for Kevin to route.

Ex. 5 - Deliberative

Ex. 5 - Deliberative

To help track our efforts we have a summary report. Here is a link to that summary.

Analytical work will be done by three Regions (R2, R3, and R9), NAREL (rad work), and commercial labs (Tier 4 - micro and Isotech methods).

Ex. 5 - Deliberative

If you have any further questions please contact Stevie or me.

Cindy
